INDEX.

ABBE, ROBERT, Trephining for traumatic epilepsy, with subdural implantation of rubber tissue, 95; Extradural implantation of rubber tissue over foramina after Hartley's operation for facial neuralgia, 97; Method of dealing with the round ligaments in Alexander's operation, 99; Œsophageal stricture, 359; Recurrence of sarcoma in kidney, 360; Angioma of entire upper extremity, 361; Strangulated hernia, 368; Resection of bowel for relief of obstruction, 735; Traumatic epilepsy, Operation for, 737; Cure of tubercular peritonitis, 737; Preliminary tracheotomy in operations on the upper air-passages, 743; Nephrectomy for hydronephrosis, 744; for sarcoma, 745; Gastro-enterostomy, 746.

Abdomen, Disappearing tumor of, 524; Perforating gunshot wound of, without wound of intestine, 364.

Abdominal cystic tumor in the male, Cases of, 703; Section, After-treatment in cases of, 112.

Actinomycosis, 155.

Air-distention of the bladder in suprapubic cystotomy, 141, 180.

Airol as a substitute for iodoform, 371.

Alexander's operation, Technique of, 99.

Alimentary Canal, Review of Maylard's Treatise on the Surgery of, 666.

ALLEN, DUDLEY P., Removal of a thyroid sarcoma under cocaine anæsthesia, 720.

ALLIS, OSCAR H., Deportment of needles penetrating the tissues, 614; Open measures in the treatment of fractures, 698, 760; A new needle-holder, 750.

Altitudes, high, Effect of, in aggravating surgical shock, 430.

American Surgical Association, Transactions of, Volume XIV, 1896, Review of, 520.

American Year-Book of Medicine and Surgery, 1896 and 1897, Review of, 668.

Angioma of entire upper extremity, 361; of the neck, Cavernous, 649.

Anterior tibial artery, Rupture of, in simple fracture of the leg, 629.

Appendicitis, Intramuscular entrance in operations for, 364; with general septic peritonitis, recovery, 179.

Appendix, Inflamed, adherent to ureter, 187; Simulated by ileo-cæcal hæmatoma, 188.

Arthritis, Gonorrhœal, 664.

BARTON, J. M., Effect of exploratory section on pyloric obstruction, 754; Open measures in the treatment of fractures, 762.

BELL, J. MALSEED, Disappearing tumor of the abdomen, 524.

BINNIE, JOHN FAIRBAIRN, Relations between granulation tissue of repair, the infective granulomata, and the sarcomata, 768.

Bladder, Multiple stones in, removed by cystotomy, 192; Air-distention of, in suprapubic cystotomy, 141, 180; Removal of foreign bodies from the male, introduced through the urethra, 747; Sacculation of, 749; Foreign bodies introduced into the male, per urethram, 568; Resection of, 663.

Blood-vessels, End-to-end suture of, after injury, 515.

Bobbin, Use of potato, for facilitating enterorrhaphy, 485.

Bones, Osteoplastic splitting of, 665.

BOVÉE, J. WESLEY, Uretero-ureteral anastomosis, 51.
Bowels, Obstruction, relieved by resection, 735.
Brain, Skiagraph of bullets in, 478.
Breast, Primary tuberculosis of, 86; Excision of, for cancer, 210; Substitution of lipoma for, by plastic, 211; Operative technique for cancer of, 478; Results of Halsted's operation for carcinoma of, 363.
BRIDDON, CHARLES K., Gastro-enterostomy with Murphy button, 100; Intestinal obstruction by gall-stone, 101; Technique of laminectomy, 106; Treatment of tubercular peritonitis, 738; Control of hæmorrhage during amputation at the hip-joint, 741; Preliminary tracheotomy in operations on the upper air-passages, 743.
BROWN, F. TILDEN, Thyroidectomy, 92; Hip-joint amputation, 93; Air-distention of the bladder in suprapubic cystotomy, 141, 180; Operation for cure of relapsing inguinal hernia, 361; Control of hæmorrhage during amputation at the hip-joint, 741.
BULL, WILLIAM T., Fracture of surgical neck of humerus complicated with dislocation, 362; Case of strangulated hernia, 366; Operations for hallux valgus, 483.
Bullets, Effects of small-calibre, as used in military arms, 36.
BUTLER-SMYTHE, Report of Fifty-Four Consecutive Ovariotomies, Review of, 518.

CABOT, A. T., Questions involved in the practice of castration for enlarged prostate, 121.
Carcinoma, Diffusion of, through the veins, 512.
Carotid arteries, Contribution to the surgery of, 617.
Castration for enlarged prostate, Questions involved in, 107, 121; in enlargement of the prostate, 381.
Chapman's Manual of Medical Jurisprudence and Toxicology, Review of, 119.
Charcot's disease of the knee, 489.
Chemotaxis and leucocytosis, Relation of, to the action of antiseptics, 370.
Choledoch duct, Contribution to the history of operations on, 80.
Clavicle, Double fracture of, 716.
COLEY, WILLIAM B., Artificial nose, 103; Case of sarcoma cured by mixed toxines of erysipelas, 174, 177; Resection of intestine for gangrenous hernia, 180; The radical cure of hernia, 270; Recurrent kidney-sarcoma, 360; Strangulated hernia, 366; Thyroidectomy for goitre, 624; Technique of operations for the radical cure of hernia, 625; Total necrosis of lower jaw, 629.
Colon, cancer of, Resection of intestine and suture over potato bobbin, 485.
Cranium, Fatal shot-wound of, 365.
CUMSTON, CHARLES G., Tertiary syphilitic epididymitis, 306.
CURTIS, BENJAMIN F., Nephrotomy, 172; Nephrectomy for tubercular kidney, 173; Use of toxines of erysipelas in the treatment of sarcoma, 177; Total necrosis of upper jaw, 629; Treatment of tubercular peritonitis, 740.
Cystotomy, Suprapubic, preceded by air-distention, 141, 180.

DA COSTA, J. M., Charcot's disease of the knee, 489.
DAVIS, GWILYM G., Effects of small-calibre bullets as used in military arms, 36; Fractures of the tibia involving the ankle-joint, 764; Uranoplasty, 766.
DAWBARN, R. H. M., Laminectomy in simple fractures, 104; Treatment of fæcal fistula, 476; Plastic operation for restoring lower eyelid, 476; Operations for hallux valgus, 481.
DEAVER, JOHN B., Open measures in the treatment of fractures, 762.
Deformities, Multiple congenital, 94.

Delanglade on Congenital Dislocations, Review of, 519.
Dermoid cyst of orbit, 487.
Dorland's Manual of Obstetrics, Review of, 117.

ELLIOT, JOHN W., Contribution to the surgery of the large intestine, 351.
Epididymitis, Tertiary syphilitic, 306.
Epilepsy, traumatic, Excision of diseased cortical tissue for, 91; Trephining and subdural implantation of rubber tissue, 95; Focal, Surgical treatment of, 209; Traumatic, Operation for, 737.
Epispadias, Operative treatment of, 379.
Epithelioma, Calcifying, 513.
Erysipelas toxines in the treatment of sarcoma, 174; in the treatment of malignant tumors, 514.
Ether, Death from, 183.
Eyelid, Plastic operation for restoration of, 476.

FACE, Terrier's Manual on the Surgery of the, Review of, 794.
Fæcal fistula, Treatment of, 475
FARIES, RANDOLPH, Brace for treatment of Pott's disease, 182; Case of strangulated inguinal hernia in an infant, 487; Diagnosis of abdominal tumors, 498.
Femur, Fracture of the neck of, in childhood, 673.
FINNEY, JOHN M. T., Surgical treatment of perforating typhoid ulcer, 233.
FORBES, W. S., Case of fragment of rib in the urinary bladder, 747; Hourglass contractions of the bladder, 749.
Fothergill's Manual of Midwifery, Review of, 224.
FOWLER, GEORGE R., Importance of the primary direction of the sac and spermatic cord in operations for the radical cure of hernia, 625, 627.
Fractures, Open measures in the treatment of, 698, 760.
FRANKLIN, MELVIN M., Double fracture of the clavicle from direct violence, 716.
FRAZIER, CHARLES H., Hot-air treatment of gouty arthritis, 635; Excision of myxofibroma of neck, 635.
FREEMAN, LEONARD, Some fractures of the lower end of the radius as seen by the Röntgen rays, 470.
Furuncles, Treatment of, 514.

GALLAUDET, BERN B., Laminectomy for simple fractures, 28, 103.
Gall-ducts, Evolution of the surgery of, 657.
Gall-stone, causing intestinal obstruction, 101.
Gall-stones, Report of two hundred and nine operations for, 656.
Gasserian ganglion, Removal of, for trifacial neuralgia, 97.
Gastric ulcer relieved by gastro-intestinal anastomosis, 368.
Gastro-enterostomy with Murphy button, 100; combined with entero-anastomosis, 655; for carcinoma of pylorus, 746.
Gastrostomy by Kader's method, 88.
Genito-Urinary Surgery and Venereal Diseases, Review of White and Martin's Text-Book of, 792.
GERSTER, ARPAD G., Remarks on strangulated hernia, 367.
GIBNEY, VIRGIL P., Ankylosis of knee, with inward rotation of leg, 93; Multiple congenital deformities, 94; Orthopædic operations, 315, 368.
Goitre, Three hundred operations for, in the Tübingen Clinic, 374; Bruns on the evolution of the modern treatment of, 507; Thyroidectomy, 624; Removal of, under cocaine anæsthesia, 720.
Gonorrhœal arthritis, 664.
Gouty deposits, Excision of, 633.
Granulation tissue of repair, Relations of, to the infective granulomata and to the sarcomata, 768.

HALLUX valgus, Operative treatment of, 444, 480.
HEARN, W. JOSEPH, Cases of ab-

dominal cystic tumor in the male, 703, 759; Open measures in the treatment of fractures, 760.

Hæmatoma of ileo-cæcal loop, simulating appendicitis, 188.

Hernia, gangrenous, Resection of intestine for, 180; Tuberculosis of, 377; Relapsing inguinal, Operation for, 361; Strangulated, 366; Three hundred and sixty cases of radical cure of, 270; Inguinal strangulated, in early infancy, 487; Gangrenous strangulated, Case of, 462; Technique of operations for the radical cure of, 625.

Hip, Delanglade on Congenital Dislocations of, Review of, 519.

Hip-joint amputation for sarcoma, 93; amputation, Report of sixty-nine cases done by Wyeth's bloodless method, 129, 178; amputation, with compression of common iliac artery by direct intra-abdominal finger-pressure, 610; amputation, Control of hæmorrhage during, 741.

HOMANS, JOHN, Case of cavernous angioma of the spleen, 732.

HOPKINS, WILLIAM BARTON, Cause of deformity after fracture of the lower extremity of the radius, 196; Congenital absence of both patellæ, 197; Lingual lipoma, 201; Lever and fulcrum for trephining, 763.

HORWITZ, ORVILLE, Foreign bodies in the bladder, 747.

Humerus, Fracture of surgical neck of, complicated with dislocation, 362; ununited fracture of, Frequent cause for, 638; Defect of, supplied from the spine of the scapula, 787.

Hydrocele, bilocular, Case of, 708; Treatment of, 759.

Hypospadias, Operative treatment of, 379.

ILEO-CÆCAL loop, extirpation of, Cases of, 216.

Intestinal anastomosis, Ullman's improved method for, 230; by Murphy's button, Results of, at the Heidelberg Clinic, 654.

Intestinal obstruction caused by gallstone, 101.

Intestine, Anastomosis after resection for obstruction, 735; Can micro-organisms pass through the intact wall of, 378; Contribution to the surgery of the large, 351; Contusion and gangrene of, 455.

Intestines and stomach, Wölfler on the surgery of, 640.

Iodoform, Substitutes for, 371.

JACKSON, EDWARD, Dermoid cysts of the orbit, 488.

Jaw, Total necrosis of the lower, following osteomyelitis, 373; lower, Case of total necrosis of, 628; upper, Case of total necrosis of, 629.

JONES, ROBERT, Castration in enlargement of the prostate, 381.

KADER'S method of gastrostomy, 88.

KAMMERER, FREDK., Incomplete and complete exclusion of gut for fæcal fistula, 475; Traumatic paralysis of musculo-spiral nerve, 624.

KEEFE, JOHN W., Cases of radical cure of psoas abscess by operation, 727.

KEEN, WILLIAM W., Pancreatic cyst, 492; Foreign bodies in the bladder, 748; Apparent disappearance of supposed malignant tumor of stomach after exploratory section, 750.

Kidney, wound, Suture of, 172; Tuberculosis of, nephrectomy, 173; Abscess of, nephrectomy, 190; Sarcoma of, recurrence after removal, 360; Laceration of, with fatal hæmorrhage, 455; Intermittent cysts of, 529; Removal of, for hydronephrosis, 744; for recurrent sarcoma, 745.

Kidneys, Diagnosis and treatment of surgical affections of, 1; Observations upon the circulation in the, 660; Abscess in the fatty capsule of the, 660.

Kirstein on Autoscopy of the Larynx and Trachea, Review of, 520.

Knee, Ankylosis of, with inward rotation of the leg, 93; Charcot's disease of, 489.

LAMINECTOMY for simple fractures, 28, 103.

Larynx, congenital diverticulum of, Case of, 711; and Trachea, Autoscopy of, Review of Kirstein on, 520.

Leucocytosis and chemotaxis, Relation of, to the action of antiseptics, 370.

LILIENTHAL, H. A., Hip-joint amputation, 178.

Lingual lipoma, Case of, 201.

Lipoma arborescens of extensor tendon sheaths of forearm, 623.

Liver, Schlatter on the treatment of traumatic injuries of, 499; Surgery of the, 547.

McBURNEY, CHARLES, Result of Halsted's Operation for carcinoma of breast, 363; Direct intra-abdominal finger-compression of the common iliac artery during amputation at the hip-joint, 610; Treatment of tubercular peritonitis, 739; Control of hæmorrhage during amputation at hip-joint, 741; Preliminary tracheotomy in operations on the upper air-passages, 742.

McCOSH, ANDREW J., Case of rhinoplasty, 95; Technique of Alexander's operation, 99; Laminectomy for simple fractures, 105; Spontaneous disappearance of sarcoma, 176; Hip-joint amputation, 179; Appendicitis with general septic peritonitis, recovery, 179; Air-distention in suprapubic cystotomy, 180; Cases of rupture of the quadriceps femoris tendon treated by suture, 355; Operations for hallux valgus, 484; Treatment of general septic peritonitis, 687.

MAKUEN, G. HUDSON, Speech-training after closure of palatal clefts, 185.

Malignant tumors, Observations on the treatment of, by bacterial products, 514.

MANLEY, THOMAS H., Contribution to traumatic abdominal surgery, 454.

MARCY, HENRY O., Contribution to the history of operations on the common choledoch duct, 80.

Maylard on the Surgery of the Alimentary Canal, Review of, 666.

MEARS, J. EWING, Uranoplasty, 765.

Medical Jurisprudence and Toxicology, Review of Chapman's Manual of, 119.

MEYER, WILLY, Gastrostomy by Kader's method, 88; Excision of cortical tissue for traumatic epilepsy, 91; Gastro-intestinal anastomosis for ulcer of stomach, 368; Carcinomatous stricture of pylorus, 369; Ulnar paresis from shot-wound of arm, 477; Skiagraph of bullets in brain, 478; Operative technique for cancer of the breast, 478; for hallux valgus, 480; Lipoma arborescens of extensor tendon sheaths of forearm, 623; total necrosis of lower jaw, 628; Use of celluloid plates to close trephine opening in skull, 632.

Midwifery, Review of Fothergill's Manual of, 224.

Military arms, Effects of small-calibre bullets as used in, 36.

MORTON, T. G., Charcot's disease of the knee, 489.

MORTON, THOMAS S. K., Dermoid cyst of orbit, 487; Surgical aspects of gouty deposits, 635; Ununited fracture of humerus, 639; Effect of exploratory section on malignant disease of the stomach, 754.

Murphy button in gastro-enterostomy, 100; Results of, use at Heidelberg, 654.

MURRAY, FRANCIS W., Tracheotomy as preliminary to operations upon the upper air-passages, 600.

Musculo-spiral paralysis, after injury, 624.

NARCOSIS paralysis, Krumm on, 203; Central, Case of, 797.

Neck, myxofibromatous tumor of, Excision, 635; Cavernous angioma of, 649.

Needle-holder, 750.

Needles, Deportment of, penetrating the tissues, 614.

NEILSON, THOMAS R., Open measures in the treatment of fractures, 760.

Nephrectomy for tubercular kidney, 173; for pyonephrosis, 190; for hydronephrosis, 744; for sarcoma, 745.
Nephrotomy, 172.
Nerve, Results of evulsion of, for neuralgia, 517.
Neuralgia, Removal of Gasserian ganglion for trifacial, 97.
NEW YORK SURGICAL SOCIETY, Transactions of, 88, 103, 172, 180, 359, 368, 475, 623, 735.
NOBLE, W. H., Ureter involved in appendical inflammation, 187; Ileo-cæcal hæmatoma simulating appendicitis, 188; Nephrectomy for pyonephrosis, 190; cystotomy for multiple vesical calculi, 192.
Nose, artificial, Case of, 103.

OBSTETRICS, Dorland's Manual, Review of, 117.
O'CONOR, JOHN, Clinical contribution to the surgery of the liver, 547; The treatment of varicose veins, 526.
Œsophagus, Stricture of, 359; foreign bodies in, Value of skiagraphy to detect, 650.
Omentum, Congenital multilocular cyst of, 703.
Orbit, Dermoid cyst of, 487.
Orthopædic operations, 315, 368; Association, American, Transactions of, Vol. IX, 1896, Review of, 796.
Osteoma of tibia, 764.
Ovarian tumor, Suppuration and rupture of, 748.
Ovariotomy, Review of Butler-Smythe's Report of Fifty-Four Cases of, 518.
Ovary, Intermittent cysts of, 529.

PACKARD, FRANCIS R., Foreign bodies introduced into the male bladder per urethram, 568.
Palate, cleft, Successful closure of, 184.
Pancreatic cyst, 491.
Paralysis from pressure during narcosis, 203; Case of central narcosis, 797.
Park's Treatise on Surgery, Review of, 221.
Patellæ, Congenital abscess of both, 197.
PENROSE, CHARLES B, Pancreatic cyst, 491
Peritoneum, Observations on the absorption of fluids by, 332.
Peritonitis due to perforating gastric ulcer, treatment of, 213; Treatment of general septic, 687; tubercular, Cure of, 737.
PHILADELPHIA ACADEMY OF SURGERY, Transactions of. 759, 763.
